

Best Papers (3)
(in alphabetical order)

1. Willem De Muynck, Stijn Leuridan, Nele De Belie, Willy Verstraete, *Limestone Porosity Determines the Protective Effect of a Biogenic Carbonate Surface Treatment*
2. Hamed Mohebbi and Chun Qing Li, *Application of Fracture Mechanics in Reliability Analysis of Corrosion Affected Cast Iron Water Mains*
3. Cristina Tedeschi, Luigia Binda, Elsa Garavaglia, *Probabilistic Evaluation of the Durability of Ready Mix Mortars on the Maintenance of Historic Masonry*

BEST presentation (9 papers)
(in alphabetical order)

1. **Madeleine Flint**, for the presentation of paper co-authored with Sarah Billington and entitled: "*A Probabilistic Approach to Performance-Based Durability Engineering*"
2. **Pratanu Ghosh** for the presentation of paper co-authored with Paul J. Tikalsky entitled: "*Effect of Ternary Cementitious System on Conductivity and Diffusion Coefficients Models*"
3. **Roel Hendrickx** for the presentation of paper co-authored with Staf Roels, Hilde De Clercq and Yves Vanhellefont and entitled: "*Experimental Determination of Liquid Transport Properties on Salt-Contaminated Porous Stone*"
4. **Hans Janssen**, for the presentation of paper entitled: "*Thermal Diffusion of Water Vapour in Porous Materials: a Critical Review*"
5. **Arto Köliö** for the presentation of paper co-authored with Jukka Lahdensivu and entitled: "*Calculation Example for Anticipating the Repair Need of Concrete Facade and Balcony Structures*"
6. **Joaquim Teixeira** for the presentation of paper co-authored with Rui Fernandes Póvoas, and entitled: "*The Importance of Design in Porto's Ancient Buildings Interventions. Characterization of the Pathological Context through a Constructive Model*"
7. **Ana Luísa Velosa** for the presentation of paper co-authored with Fernando Rocha, Aníbal Costa, João Coroado, Ana Fragata, Esmeralda Paupério, and entitled: "Characterization of the Conservation State of the Façade of Teatro Nacional de S. João, Port"
8. **Oly Vololonirina** for the presentation of paper co-authored with Simone Julien, Ginette Arliguie, Alain Sellier, and entitled: "*The Influence of Glycerophosphates on the Transfer Properties of Concrete Cover*".
9. **Andreas Zegowitz**, for the presentation of paper co-authored with Hartwig M. Künzel and entitled: "*Durability Test Designed for Double Glazing Units with Interjacent Light-deflecting System*"
