

R&D&I in co-operation with Industry

Some food for thought

Sebastião Feyo de Azevedo, Emeritus Professor, University of Porto
3rd Doctoral Congress in Engineering - Symposium on Refining,
Petrochemical and Chemical Engineering, 27-28 June 2019, FEUP

CONDITIONS FOR CO-OPERATION

- **It takes two to Tango!!!**
- **Good examples of co-operation - EnglQ...**
- **Attitude in the University - major positive progress over the years**
- **What about the industrial side?**
 - **Political will - General Management and Technical Management**
 - **But also, adequate organization and human resources**

POSITIVE MOMENT, REQUIRING POLITICAL ACTION

- **Today's state of development leaves no doubt about the role of KNOWLEDGE**
 - **Global scale and competition**
 - **Digital transformation is pressing for co-operation**
- **Urgent need of more proactive political initiatives**
 - **Increase doctoral studies with industry and other social activities**
 - **Particularly, fight for insertion of young PhDs in all areas of human life...**
